Grationes.—Some three months ago I began the use of Dr. Harten's Inon Tonic, upon the advice of many friends who knew its virtues. I was suffering from general debility to such an extent that my labor was exceedingly burdensome to me. A vacation of a month did not give me much relief, but on the contrary, was followed by increased prostration and sinking chilis. At this time I began the use of your Inon Tonic, from which I realized almost immediate and wonderful results. The old energy returned and I found that my natural force was not permanently abated. I have used three bottles of the Tonic. Since using it I have done twice the labor that I ever did in the same time during my librers, and with double the case. With the tranquil nerve and vigor of body, has come also a clearness of thought never before enjoyed. If the Tonic has not done the work, I know not what, I give it the credit.

OLIVER DITSON & CO., Boston C. H. Ditson & Co., J. E. Ditson & Co., How Watches are Made.

It will be apparent to any one, who will from the necessary thickness for engraving and polishing, the large proportion of the ous metal used, is need only to stiffer and hold the engraved portions in place, and apply the necessary solidity and strength. the surplus gold is actually needless, so far s UTILITY and beauty are concerned. In JAMES BOSS' PATENT STIFFENED GOLD WATCH CASES, this waste of precious metstrength produced at from one-third to one half of the usual cost of solid cases. Thes process is of the most simple nature, as 101-lows: A plate of composition metal, specially adapted to the purpose, has two plates of solid gold soldered one on each side. The three are then passed between polished steel rollers, and the result is a strip of heavily plated composition, from which the cases enters, bezeis, etc., are cut and shaped by suitable dies and formers. The gold in these is sufficiently thick to admit of all kinds of chasing, engraving and enamelling; and en graved cases have been carried until worn perfectly smooth by time and use withou emoving the gold. These cases are for sale by all fewelers, and are guaranteed by SPEC-IAL CERTIFICATE to WEAR FOR 20 YEARS. If your jeweler does not keep them send to Haceron & Trours, Ledger Building, Phila-delphia, for illustrated conseque.
